

# Lab 2

---

**Due** Sep 8 by 11:59pm      **Points** 30      **Available** Aug 30 at 12am - Sep 8 at 11:59pm 10 days

---

This assignment was locked Sep 8 at 11:59pm.

## Overview

In this assignment you are going to handle some basic input operations including validation and manipulation, and then some output operations to take some data and format it in a way that's presentable (i.e. readable to human eyes).

Strings are odd creatures in programming. They have many exceptions, and every programming language tends to handle them just a little bit differently (generally through the use of some string class).

(Optional) For a deep-dive into strings (in general, and in C++), read this page: [Strings](#)

## Description

The assignment description is located on zyBooks, under the assignment "Lab 2 - Data Visualization"

## Submission

This assignment is to be completed on zyLabs, under the assignment "Lab 2"
